 **Würth Iceland - football&fun**

# Würth Iceland – football & fun

Pink Ladies from the Faroe Islands attended Würt Iceland Football&fun third year in a row in 2016. The competition is great and the social events even better. During these 3 years we have developed good friendships with the other players from all over the world. The hotel is great and centrally situated in the heart of Reykjavik. All the staff our bus drivers, Magnus, the referees and other helpers are very friendly and supporting. The teams support each other on the field and cheer for each other and we feel like one big family of “old”, or should I say “Giants/masters” footballers, who are still hanging in there ☺. We have told our football friends in the Faroe Islands about this wonderful tournament, and in 2016 we were 6 teams from our Islands, fantastic. We have already booked for 2017 and are looking forward to it. **Oda Wilhelmsdóttir Andreasen, Pink Ladies from Tórshavn, Faroe Islands**

The Würth Iceland Football and Fun Tournament has been something to look forward to every year. The level of competition, the hospitality of the Fylkir host club, and the camaraderie between all of the players and teams make this tournament a must. Iceland alone is a great destination, but if you are looking for some good football and fun, don't miss this tournament! **Lisa Zagura, Boston Express from Boston, USA.**

It was a great success for our team in several ways. First of all, we got to meet our Nordic brothers and sisters' hospitality, their marvellous cooking, in very nice restaurants downtown Reykjavik with a lot of open bars with a great night life. The sightseeing tour around the beautiful island was very different from little Denmark. The hotel was right in the middle of everything. And you are really ahead with your heated indoor hall, where we played some exciting matches. And your gala dinner was outstanding, thank you for a wonderful time in Reykjavik. Our team can truly recommend your tournament to everybody from Denmark, in the age from 30 to 50 plus. **Flemming Degn, Boldklubben Fremad Valby from Copenhagen, Denmark.**

A truly great tour. Our footballing abilities were tested to the limit, but this is only half of the reason for coming over. We wanted to experience the culture and pastimes of a country that most of us never had the opportunity to visit. We were certainly not disappointed with what we found, and will return. We were treated to the genuinely warm hospitality and care furnished upon us by Captain Maggi and his friends, from the moment we landed until the presentation gala party. They simply couldn't do enough for us, for which we are most grateful. All of us had a positive experience that will live long in the memory. We left Iceland much richer in many ways. **Mark Trinder, Team GB from Woking, England**
